

## SRJC Course Identification Numbering System (C-ID) Qualified Courses

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. The following Santa Rosa Junior College courses qualify for articulation with designated C-ID numbers. **This list is subject to change and will continue to expand as additional SRJC courses are approved for C-ID.**

A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a course qualifies for a C-ID number, for example COMM 110, students at SRJC can be assured that it will be accepted in lieu of a course bearing the C-ID COMM 110 designation at another community college. In other words, the C-ID designation can be used to identify comparable courses at different community colleges. However, to confirm how each college's course will be accepted at a particular four-year college or university for transfer credit, students should always go to <http://www.assist.org> (the official repository of articulation for California's public colleges and universities).

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Because these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.
